SUMMARY

Hello! I'm Ben, a creative, freelance web developer with 11 years experience specialising in front-end technologies namely JavaScript to ES6, HTML and CSS. I am passionate about building effective, user friendly web experiences.

Whilst being a front-end developer, I am always keen to learn and expand my skill set to all areas of the development process. I am currently looking for new opportunities to work, share, collaborate and learn with good people.

EXPERIENCE

Zzish - *Senior Front-end Developer*

December 2018 – Present

- Responsible for management of front-end team's development timings and job assignment
- Implemented new tech such like Styled Components and Apollo into the front-end stack
- Onboarding and mentoring of junior members of the team

Tech stack: [React](#) | [Apollo GraphQL](#) | [Relay Classic & Modern](#) | [Styled Components](#) & [PostCSS](#) | [JavaScript/Typescript/FlowJS](#) | [Webpack 3/4](#) | [Node/Express](#)

Zzish - *Front-end Developer*

January 2018 – December 2018

- Development of front-end architecture using React / Relay in Node-powered workflow
- Focus on performance, usability and up-to-date practices
- Focus on own learning and expanding my own skill set in a modern web stack
- Collaborated closely with designers to create beautiful, fast and functional interfaces

-
- Occasionally worked in a full stack role when required to help with workload and to pique my own interest in the overall development process

Tech stack: [React](#) | [Relay Classic & Modern](#) | [PostCSS](#) | [SASS](#) | [JavaScript/FlowJS](#) | [Webpack 3](#) | [Jenkins](#) | [CircleCI](#) | [Bootstrap](#) | [Pug](#)

International Railway Journal, Cornwall UK - *Freelance*

January 2017 - January 2018

- Providing consultation, project management and support for the company's subscription based industry data visualisation application.
- Diagnosing and rectifying issues
- Maintaining and developing new application features
- Implementing SSL security
- Providing managed hosting service

Tech stack: [HTML](#) | [CSS/SASS](#) | [JS](#) | [jQuery](#) | [AngularJS](#) | [PHP](#) | [ExpressionEngine](#) | [Vagrant](#) | [Bootstrap](#)

Your Favourite Story, London UK - *Freelance*

May - June 2017

- Joined the agency interactive team to develop a point of sale touch table application for Mercedes-Benz UK showrooms in vanilla JS using bespoke in house framework.
- Worked closely with the project management and design team to deliver in a tight timeframe.
- Maintenance on various other Mercedes-Benz platforms.

Tech stack: [HTML](#) | [CSS/SASS](#) | [JS](#) | [jQuery](#) | [JSON](#) | [GreensockJS](#) | [SVG](#) | [HandlebarsJS](#) | [Bootstrap](#) | [Bitbucket](#) | [JIRA](#) | [Sketch](#)
